

October 10, 2023

Present – Westley Burnham  
Mike Galli

Nick Ellis  
Dave Frithsen

Cemetery Deed signature – Bradford cemetery deed signed by board.

Recycling compactor pads –

J. Filias went and shot the grades at the sight and will add to the plan. Board discusses the location of the pads. If they are put where the recycling containers were moved temporarily parking will become an issue. People will need to reverse out of the spot and that will cause traffic. N. Ellis believes it should be kept at the original location as show on the map. Squared to the building and allowing traffic to flow in a circular fashion. W. Burnham believes it should be put where the containers are right now. Board will discuss at next meeting.

State paving –

Paving work is done now we are getting complaints on the transitions into people's driveways. The contractor still needs to do shoulder work, and line painting and fix the driveway transitions.

Personnel –

Highway Foreman still on leave. On Friday Mike received a letter of resignation from an equipment operator. M. Galli will post the position and if a laborer who has his hoisting license applies Mike will move him up and post for a laborer position. M. Galli will keep the board updated as necessary.
