

Essex Conservation Commission

November 2, 1993

Present: David Folsom, Chairman; Canan Hewson; Arthur Hodges;  
Edwin Perkins; Peter Perrigo.

Meeting called to order at 8:00 p.m.

John Dick of Hancock Survey Associates, representing Charles Filias, 138 Main Street, failed to appear before the Board to submit additional information requested by the Commission. At their meeting of October 5, 1993, the Board had requested that the plans for the pier extension show the depths, slopes, frontage along the river and the depth of the dredging before they would accept the Notice of Intent.

Engineer Clay Morin submitted a Notice of Intent for Shaheen Husain for the construction/installation of a 2 inch diameter deep water service from Lufkin Street to the end of LeBaron Road. Morin said Husain has wells but he would like to put in a water line. Husain has an environmental consultant to work with the Area of Critical Environmental Concern (ACEC). The project is all in the buffer zone, but it will all be staying in the road bed. A public hearing was scheduled for November 16, 1993, at 8:00 p.m.

Hewson said she had received a telephone call stating that Robert Dawe of Coral Hill Road had constructed a car port without filing with the Commission. Perkins said he would visit the property to see if there were any violations.

The Board reviewed the correspondence.

Hodges moved to adjourn, seconded by Perrigo, with the Board voting unanimously in favor. Meeting adjourned at 9:15 p.m.

Prepared by:

Gillian B. Palumbo  
Administrative Clerk
